We are authorized to announce F. J. PERKINS a candidate for Jailor, subject to the action of the Democratic party.

RICHMOND LADY IN THE LAND OF THE SKY.

Mrs. Mary W. Williams Entertainingly of Asheville, N. C.

ASHEVILLE, N. C., Nov. 21, 1899. DEAR MR. WAGNER: The Land of the Sky smiled a pleasant welcome to us when we arrived here last September. All through these beautiful autumn days we have expected to see her sunny face darkened and become chilly, but as winter advances, her smiles grow more radiant, and here, November twenty-first, we sit on our piazzas with the thermometer above ninety, or don our broadest sun hats for a game of croquet.

On the streets of the cosmopolitan little city, one can see all manner of garb from seal-skin coats to muslin shirt waists, but the latter predominate.

Asheville has become a kind of happy hunting grounds for people from all quarters. Many of the wealthy Southern planters have summer homes here. They came up during the malarial season on the coast, and enjoy the coolness of this high locality. And many Northern swells have their winter homes here. The streets are just becoming gay with the impending throng of the latter-livied, monogrammed, etc.

We Kentuckians lose a little of our conceit as we roam around. We are inclined to look with indulgent superiority on all boasts of fine scenery as much as to say: "Ah, you have never been in our blue grass country—you have never wandered over our velvet slopes and majestic woodlands or you would not vaunt your shabby scenery before us!" And well, we may be proud. For pastoral beauty, can any land approach ours!

But for the poet's "disposal of beauty" comment me to the mountains where nature has a voice of sympathy for our every mood. Asheville, as you know, is at the confluence of the two picturesque mountain streams, the French Broad and the Swannanoa rivers. Like the city of Mexico, it occupies an undulating plateau encircled by mountains.

On the East, the gorgeous autumn hills are flaunting their brilliant colors before us, while a chain of peaks, veiled by the soft shroud of distance, encircles us on the Northwest and South. All over and around these hills are homes of every style of architecture. The old colonial mansions, the long, broad piazzas and wide halls, with deep fire places being eminently suited to a climate where confinement in small quarters is the worst of punishments. There are Swiss chalets, too, and pretty gabled cottages. Here and there, the towers and turrets of a castle-like hotel peer out from the forests on the mountain.

AN IMPORTANT FOOD LAW.

HEAVY PENALTIES FOR SELLING ARTICLES OF FOOD CONTAINING UNHEALTHY INGREDIENTS.

The following law was passed at the last session of the Missouri Legislature, taking effect August 20, 1899:

SECTION 1. That it shall be unlawful for any person or corporation doing business in this State, to manufacture, sell or offer to sell any article, compound or preparation for the purpose of being used as food which is intended to be used in the preparation of food, in which article, compound or preparation there is any arsenic, calcium, bismuth, ammonia or alum.

SECTION 2. Any person or corporation violating the provisions of this act shall be deemed guilty of misdemeanor, and shall, upon conviction, be fined not less than \$100, which shall be paid into and become a part of the road fund of the county in which such fine is collected.

The operation of this law will be maintained against alum lacing powders. But the manufacture or sale of any kind of food or article intended to be used in food, which contains any of the substances forbidden by the law as unhealthy—from arsenic to alum—is absolutely prohibited.

HORSES SHOULD DRINK FIRST.
(Selected for the CLIMAX.)

A horse should always be allowed to drink before the feeding, and for this reason the stomach of the horse is of such a conformation that if he is given his food first, and then allowed to drink afterwards, there is a way to a probability of portions of the food being carried away by the passage of the latter through the stomach, and, as a consequence, colic is not infrequently brought about. Moreover, the animal should be allowed to drink three or four times a day, and fed quite as often in spite of the practice common with very many groomers.

The water has a tendency to allay any feverish symptoms that may arise, and considering the nature of the work, for example, that a hunter has to perform, and the dry food upon which he is fed, a little attention should be paid to this matter.

PUTNAM FADELESS DYES produce the fastest and brightest colors of any known dye stuff. Sold by C. L. Searcy, Waco, Ky.; Thomas & Adams, Paducah, Ky. dec-11

AN OLD FOXY ON FOOT BALL.

It is not an easy matter for a person not a resident of a college town, to give enthusiastic support to any of the purely college pastimes. He is the view of a self-confessed "old foy," the editor of the Anderson News, yet there is more sense than sentiment in what he says:

"It is a little difficult for an old foy to see the good of all this noise and shouting. It seems as if the boys might spend their hours more profitably in constructing Latin sentences, digging out Greek roots or solving geometrical problems, instead of going about yelling at the top of their voices: 'Hip, hip, huray! The Toughest Set With the Longest Hair!'"

"College students think more of the champion foot ball player than they do of the valedictorian. More care is exercised in the selection of a 'coach' for the team than is given to the election of a Professor of any language or science. There is only one way to correct this evil, and that is for the public to demand more learning and less bragging. The colleges make it a point to furnish that which is demanded."

To Cure a Cold in One Day
Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. 25c. E. W. Grove's signature is on each box. oct-25-0m.

"THE LOST CAUSE"

"The Lost Cause," which is a frequent visitor to our office, is a most interesting journal, edited by Mrs. Basil W. Duke and Miss Florence Barlow, of Louisville, Ky. It is published under the auspices of the Daughters of the Confederacy of Louisville, numbering two hundred and twenty-six, which is a mighty power behind the throne. It is made up largely of Confederate scenes, incidents, and historical reminiscences of the period of '61 to '65, interspersed with spicy editorials and interesting literature of the present.

The December number will contain the splendid address delivered by Mrs. A. M. Harrison at the meeting of the Kentucky State Division of U. D. C. at Richmond; also other interesting matter in connection with that meeting.

This is a journal that ought to be supported not only by all Confederates, but all lovers of Confederate literature and who care for the brave men of the sixties.

Every dollar made by "The Lost Cause" is used to help Confederate veterans, their families, widows and orphans. The subscription price is 75 cents a year, and we wish for Mrs. Duke and Miss Barlow a large list from Madison county.

It takes but a minute to overcome itching in the throat and to stop a cough by the use of One Minute Cough Cure. This remedy quickly cures all forms of throat and lung troubles. Harmless and pleasant to take. It prevents consumption. A famous specific for grippe and its after effects. Perry & Thomas.

WORTH A TRIAL.

Mr. Wash Huggins, of Cave City, Ky., who probably knows as much about fruit trees as any body in Warren county, says now is the time to protect them against the gnawing of rabbits by rubbing their trunks with soft soap, says the Glasgow Times. Mr. Huggins says that a liberal application of soap to the trunk is not only an absolute preventive to the gnawing of the rabbits, but it also brings the trees out in springtime with a beautiful, smooth, green, healthy bark.

The Appetite of a Goat

Is evaded by all poor dyspeptics whose Stomach and Liver are out of order. All such should know that Dr. King's New Life Pills, the wonderful Stomach and Liver Remedy, gives a splendid appetite, sound digestion and a regular bodily habit that insures perfect health and great energy. Only 25 cents at any Drug Store.

CENTURY ENDS

AT MIDNIGHT, SUNDAY, DECEMBER 31, 1899.

"Hundreds of persons contend that the twentieth century will begin January 1, 1900, while other hundreds contend with equal positiveness that the correct date is January 1, 1901," writes Edward Rex in the October Ladies' Home Journal. "The 1900 contingent argues that, of course, the new century begins with its numeral date, and goes on to figure out very deftly that with the last day of the year 1899 the hundred years will have run their course. They argue that if the first year, ended with December 31 of the year 1, the nineteenth hundredth year must, of course, end with December 31, 1899, and the first day of the new century. And curiously enough, this latter figure is correct, but only in a numeral sense. These statisticians overlook one very important fact, however, that it requires one hundred years to make a century, and it calls for no expert mathematician to figure out that the full hundred years of the nineteenth century will not have run their course until 12 o'clock midnight of the 31st of December, 1900. Numerically, we enter the twentieth century with January 1, 1900. But, nevertheless, we must complete the entire year of 1900 and go through its 365 days, before the actual nineteenth hundred years shall have run their course."

LADIES—For relief of women, Chester Tansy Tablets, worth their weight in gold. A safe and certain monthly regulator. \$1 a box.

MURDOCK CURE CO.,
nov 29 ly Atlanta, Ga.

BALDWIN

Mrs. Elizabeth Young has returned from a three months stay with the family of Nathan Fain, at Fairville.

The members of Bethel church are in quest of a pastor for next year. The church was without a pastor last year.

Corn is about all gathered at this time; yield not so good as last year, being in stock at 40 cents per bushel, delivered.

Mr. Hayes Stocker, of Nicholasville, accompanied by his wife, spent a few days with friends and relatives here the past week.

Mrs. Wm. Reynolds left Friday for Marine, Illinois, where she will join her husband. They expect to make their future home.

Through the efforts of our enterprising merchant and postmaster, Mr. J. G. Baxter, we have daily mail at Baldwin of only three times a week, as we formerly had.

"Kit" Shifflet, of McLean county, Illinois, paid his old home here a short visit the past week returning here Saturday. He has three sons living there at present.

There has been several crops of tobacco sold in this section, at prices ranging from 5 to 7 1/2 cents per pound. The farmers are about through stripping the weed down here.

W. J. Harvey has sold his farm of 100 acres to Andrew Clark, of Jackson, Ky., for \$225. Mr. Harvey has removed with his family to Jefferson-town, Ky. We wish Mr. Harvey success in his new home, and welcome Mr. Clark to our midst.

It goes to every part—Murdock Catarrh Cure. It cures Colds, Hay Fever and all forms of Catarrh. Price \$1, mailed on receipt of price. See advertisement.

MURDOCK CURE CO.,
nov 29 ly Atlanta, Ga.

The most interesting personality in the new State Senate will be Hon. Curtis F. Burnam, from the district composed of the counties of Madison, Elliott, Lee and Powell. Born in 1839 and graduated at Yale in the class of 1860, he was elected a member of the Legislature in 1851; in 1852 he was a Presidential elector for Scott and Graham; served two more terms in the Legislature; in 1863 was the Republican nominee for United States Senator and was defeated by James Guthrie in 1864 was the Lincoln and Johnson elector for the State-at-large, and in 1875 was appointed by President Grant, assistant secretary of treasury. Mr. Burnam has been for nearly forty years President of a bank at Richmond; has the degree of LL. D. from Centre College; one of his sons is a member of the Court of Appeals and another one has served in the lower House of the Legislature. In all the States there is no finer specimen of the gentlemen of the old school, and his presence will add to his dignity, culture and courtesy of a body sadly in need of those graces—Louisville Times.

Mr. J. Sheer, Sedalia, Mo., saved his child's life by One Minute Cough Cure. He had a severe cold, but it was cured by One Minute Cough Cure. It is an infallible cure for colds, coughs, grippe, pneumonia, bronchitis, and all lung troubles. Relieves at once. Perry & Thomas.

Taxpayers of Lawrence county are rejoicing over the termination of their railroad bond suit, which has just been decided in favor of the county by the Supreme court of the United States. The principal an interest due on bonds up to this date amounted to over \$600,000, it being about 4 per cent. of tax values. Before suit was brought and the bonds declared void the county had paid over \$400,000 in interest and one bond of \$100,000. The termination of this suit puts Lawrence county out of debt.—Farmers' Home Journal.

Miss Annie E. Gunning, Tyne, Mich., says, "I suffered a long time with dyspepsia, lost flesh and became very weak. Koloid Dyspepsia Cure completely cured me." It digests what you eat and cures all forms of stomach trouble. It never fails to give a five minute relief in the worst cases. Perry & Thomas.

They say that U. S. Judge Walter Evans, who is still contesting Oscar Turner's seat in Congress from the Louisville district, is not doing so with the hope of getting it, but that \$20,000 and more that the body allows contestants. There are others, notably one in this district, who have an eye to the state chance, and who without of, could not make \$2,000 in 20 years.—Standard Journal.

We need a new word, denoting the meaning, the knowledge which comes from practicing or doing what we know.

Moore's Air-Tight Heater

Is what you want in preference to all others. Reasons why you should get it and no other: It gives more heat and uses less fuel. It is more substantially built and like a hot air furnace. It has a large radiating surface, which circulates the air rapidly and heats the rooms evenly. It is a double heater. No dirt from ashes, as it is carried away by the patent ash flue. It has perfect regulation and easy to operate. The design of the stove is perfect. The blacking of the outside facing never burns off and is bright all the year round. For sale by
